1	2	3	4	5	6	7	8	9
	Total			Completed	262.46			
Proposed		Lake Diefenbaker on Saskatchewan river	Du'Appelle river Basin	NA	NA	Hydel Power generation, Irrigation, Municipal water supply	Proposed	Investigated for engineering feasibility. Studies on economic and environmental aspects are in hand.
		Du'Appelle river and Assiniboine	Souris river	NA	NA	___do___	Proposed	
		Assiniboine	Red river	NA	NA	___do___	Proposed	
		Northern Alberta Streams	Southern areas of Alberta		NA	___do___	Proposed	
	Mcgregor diversion	Headwaters of Fraser river	Headwaters of Peace river	British Columbia	6.3	___do___	Proposed	
	Grand Canal Replenishment and Northern Lakes Development	James Bay St. Lawrence river	Great Lake		20.95	Irrigation and Municipal water supply, Hydel Power generation, stabilisation of water levels in Great Lakes	Proposed	Transfer to USA from Canada.
	Canadian Water	Several Canadian rivers like Peace, Athabasca, and Saskatchewan	Various Western States		184.5	Irrigation and municipal W/S Hydel Power generation	Proposed	
	Magnum Plan	Peace, Athabasca, Saskatchewan	Missouri		5.75	___do___	Proposed	Diversion to Souris river and USA.
	Central, North	Mackenzie Churchill Nelson	Great Lakes Western States		184.5	___do___	Proposed	Envisages transfer by diversion through canals, tunnels.

Country	Water transfer projects			Location in province or region	Water transfer in km <sup>3</sup> /year	Purpose	Status/year of construction	salient features
	Project name	From	To					
1	2	3	4	5	6	7	8	9
	American Water Project							
	Smith Plan	Liard Mackenzie	Western United States		61.6	___do___	Proposed	Liard river flow reversal. Water lifted into Rocky Mountain trench for transfer to Western USA.
	Total				463.6			
<b>Chile</b>	Teno-Chimbarongo canal	Teno river sub-basin, tributary of Mataquito river basin	Chimbarongo sub-basin of Rapel river basin	Central zone of Chile	2.05	Irrigation	1970	Water transfer through a canal 13.66 km long into a natural river, joining Chim barrage after travelling 3 km.
	Laja Diguillin	Laja river	Diguillin	Region VIII of Southern Chile	1.10	___do___	1990	Transfer through 100 km long canal.
	Total				3.15			
<b>USA</b>	Los Angeles Aqueduct	Owen Valley	Los Angeles	California	1.8	Municipal water supply	Completed in 1913	Transports from a distance of 440 km (Owen Valley).
	All American Canal	Colorado River	California	California	4.2	Municipal water supply	Completed	
	Transmountain diversion in Colorado	Colorado	South Platte Arkansas	Colorado	0.72		Completed	
		Gunnison San Juan	Arkansas Rio Grande					
	Colorado river aqueduct	Colorado river	California		1.5	M&I and irrigation	Completed in 1941	From Lake Havasu downstream of Parker Dam on Colorado to Lake Mathews, near the city of riverside.
	Central Valley Project	Shasta dam in Sacramento river	Friant Dam on San Joaquin river, on to the Valley.	California	8.4	___do___	1930	Regulated flow from Shasta Dam to Delta of Sacramento. Pick up by a canal to Friant

Country	Water transfer projects			Location in province or region	Water transfer in km <sup>3</sup> /year	Purpose	Status/year of construction	salient features
	Project name	From	To					
1	2	3	4	5	6	7	8	9
								Dam on San Joaquin river. Also to San Francisco Bay. From Friant Dam via a canal to north and south San Joaquin valley.
	State Water Project (1 <sup>st</sup> phase)	Orville on Feather and Sacramento (San Joaquin river)	Intake of California Aqueduct	California	4.0	___do___	1973	California Aqueduct 710 km long transfers 4.9 km <sup>3</sup> /yr. Half of the flow is lifted through a series of lifts.
	Trinity river transbasin diversion	Trinity	Sacramento	California	1.52	Irrigation	Completed in 1963	
	Big Thompson	Colorado river	NA	Colorado	0.3	Irrigation	Completed	
	Central Arizona Project	Colorado	Salt Gila and Santa Cruz river basin	Central and Southern Arizona	2.71	Irrigation	Completed	
	Central Utah Project	Colorado Green sub-basin	Great Basin	North Central Utah	0.17	Irrigation, M&I	Completed in 1965	
	Garrison	Missouri	Red and Soure rivers	Hudson Bay	1.1	___do___	___do___	
	San Juan - Chama	Navajo, Colorado	Chama - Rio Le Grande	New Mexico	0.5	M&I and irrigation	Completed project	
	Frying Pan - Arkansas Project	Colorado river	Arkansas Basin	Colorado	0.2	Irrigation and Municipal water supply	Completed	
	Chicago	Lake Michigan	Chicago	NA	2.9	___do___	___do___	
	Long Lac/Ogoki Project	Long Lake	Lake Superior	Michigan	4.5	Power	___do___	

Country	Water transfer projects			Location in province or region	Water transfer in km <sup>3</sup> /year	Purpose	Status/year of construction	salient features
	Project name	From	To					
1	2	3	4	5	6	7	8	9
	New York Aqueduct	Canadian river	New York Region	New York	2.1	Irrigation, hydel, M&I	___do___	
	Truckee canal	Truckee river	Carson	California, Nevada	0.81	M&I, Irrigation	Completed in 1905	The Truckee canal is part of Truckee Carson project.
	Colorado Springs water supply	Blue river, Frypan Arkansas	Colorado Springs city	Colorado	0.01	Urban water supply	Completed in 1904	
	Union Park Reservoir	Upper Gunnison river	South Platte	Colorado	0.12	__do__	Completed	
	Total			Completed	37.56			
<b>USA (proposed)</b>	Columbia South West	Columbia river	Southwest USA	South-west USA	16.0	Irrigation and Mun. supply	Proposed	
	Snake Colorado	Snake river	Colorado	Colorado	3.0	Irrigation and M&I	Proposed	
	Texas Water Plan	Lower Mississippi; Eastern Texas	West Texas; Rio Grande; Texas Gulf Coast; Eastern New Mexico	Texas, New Mexico	21.0	Irrigation; M&I, estuary improvement	Modification likely due to cost and environmental problems. Need to meet the water shortages.	The schemes is basically meant to solve water shortage problems in the State of Texas and adjoining State of New Mexico. Source will be rivers like Red, Sabine, Sulphur, Neches and Lower Mississippi.
	Lake Superior-Missouri	Superior	Missouri	Michigan	8.9	Irrigation and M&I	Proposed	
	North American Water and Power Alliance (NAWAPA)	North west Canada; Alaska, NW US	South-west USA; Northern Mexico; South-central Canada; Great Lakes	Canada, USA, Mexico	136 - 300	Irrigation, power; M&I navigation	High cost and environmental problems. An international water treaty with Canada	Construction of 240 reservoirs, 112 irrigation systems, 17 navigation channels in Rocky mountains. The trench reservoir will be gigantic. Involves collection of water from major

Country	Water transfer projects			Location in province or region	Water transfer in km <sup>3</sup> /year	Purpose	Status/year of construction	salient features
	Project name	From	To					
1	2	3	4	5	6	7	8	9
							necessary.	rivers in NW North America like Columbia, Yukon, Fraser, Liard Peace for Skeena, and its distribution southward. Initially, 8 km <sup>3</sup> would be diverted to ultimately increase to 300 km <sup>3</sup> .
	California State Water Project	Northern California	San Joaquin Valley; Southern California	California	5.2 (2020) 14.0 (distant future)	Irrigation; M&I	First phase was completed in 1973.	It involved 20 reservoirs, 17 pumping stations, 869 km of canals, pumping stations, siphons, tunnels that carry water to San Joaquin Valley system. Expansion involves a Peripheral Canal around Sacramento-San Joaquin delta involving lift by 1,000 m over and through the Tehachapa mountain in S. California
	High Plains Water Transfer Alternatives	Middle and Lower Missouri; tributaries of lower Mississippi; Sabine river	Central and Western Nebraska; eastern Colorado; Western Kansas; northern Texas; western New Mexico		2.2 to 13.5	Irrigation	Preliminary study completed in 1982. Recommended further studies.	Four alternatives involving canals in the range of 542 km to 1,836 km are under construction. Canal dimensions likely to be 42 m at top, 16 m at bottom and a depth of 8 m. Pumping head of 1000 m.
	Total			Proposed	381.6			
	Grand Total			Completed Proposed	303.17 846.90			

## ASIA

Country	Water transfer projects			Location in province or region	Water transfer in km <sup>3</sup> /year	Purpose	Status/year of construction	salient features
	Project name	From	To					
1	2	3	4	5	6	7	8	9
China	West Route Project	Upper Reaches of Chang Jiang (Yangste)	Huang He (Yellow)	China plain	7.7	Irrigation	Proposed (Likely to start in 2010)	Three major canals across the mountainous areas of South-west China to transfer water from upper reaches of Chang Jiang to north-western region of Huang He.
	Middle Route Project	Middle reaches of Chang Jiang (Yangtse)	___do___	___do___	23.7	Irrigation Municipal water supply	Proposed (Likely to start early)	Two stages. Short term and long term. The 1 <sup>st</sup> stage from Han Jiang, a tributary of Chang Jiang at existing Dangiankou reservoir. The 2 <sup>nd</sup> stage from Chang Jiang off Sanxia Reservoir. The canal would be 1,265 km long, crossing the river Huang He through an aqueduct.
		Lower reaches of Chang Jiang (Yangtse)	Huang He (Yellow) and then to Tiajin	China plains	13.4	Irrigation Municipal water supply	Project launched on 27 Dec. 2002.	Starting at Jiang du pumping station, flowing along old Grand Canal to Tiajin. The canal 1150 km, discharge 1000 m <sup>3</sup> /s. Lift of 65 m through a tunnel below its bed. Flow by gravity. The pumping stations will also utilise drainage water. This link following the ancient Grand Canal, will include 51 pumping stations.
	Total			Completed Proposed	— 44.8			

Country	Water transfer projects			Location in province or region	Water transfer in km <sup>3</sup> /year	Purpose	Status/year of construction	salient features
	Project name	From	To

<b>India</b>	Sharda Sahayak	Ghaghara	Sharda	Uttar Pradesh	15.16	Irrigation		A canal of 4.81 cumecs capacity.
	Beas - Sutlej link	Beas	Sutlej	Punjab and Himachal Pradesh	4.9	Irrigation and municipal water supply	In operation	A 37.25 km long link with 25.45 km tunnel from Pandoh Dam.
	Madhopur - Beas link	Ravi	Beas	Punjab and Himachal Pradesh	4.5	___do___	In operation, commenced in 1895	The link takes off from Madhopur Barrage on the Ravi river.
	Kurnool Cudappa canal	Krishna	Pennar	South India	2.66	___do___	In operation since 1863	A 304 km long canal from upstream of Kurnool town.
	Periyar Vegai Link	Periyar	Vagai	South India	1.29	___do___	In operation since 1895	Water is carried through a 1,740 m long tunnel to Vagai basin.
	Telgu Ganga	Krishna	Chennai Metropolitan area	South India	0.34	___do___	Completed	Water is conveyed through an open canal from Sri Sailam reservoir
	Total			Completed Proposed	28.85			
<b>Iraq</b>		Tigris (Via Tharathor Lake)	Euphrates		15.8	Irrigation and hydeo power	Completed	From Tigris to Tharthar lake and then to Euphrates through gravity.
	Total			Completed Proposed	15.8			
<b>Japan</b>		Totsukawa river	Kinokawa river		NA		Completed	Integrated system of 4 dams and barrage.
	Total				-			
<b>Malaysia</b>	Kalinchi/Foris Water Tunnel	Upper Muar Basin	Liggi Basin		0.14		Under construction	A 6.2 km long tunnel from Kelinchi reservoir to upper Muar reservoir.
	Total				0.14			

Country	Water transfer projects			Location in province or region	Water transfer in km <sup>3</sup> /year	Purpose	Status/year of construction	salient features
	Project name	From	To					
1	2	3	4	5	6	7	8	9
Pakistan	Chashma - Jhelum link	Indus	Jhelum	Sind/Punjab	19.39			Connects Indus with Jhelum from Chasma barrages. Canal 101 km.
	Tanunsa - Panjnad link	Indus	Chenab	Punjab	12.58			Connects Indus with Chenab from Taunsa barrage. Meets Chenab 24 km upstream of Rly bridge.
	Rasul - Qadirabad link	Jhelum	Chenab	Punjab	16.96	Irrigation	Completed	Transfer of Jhelum Balloki from Rasul barrage Sulemanki link.
	Qadirabad - Balloki link	Chenab	Ravi	Punjab	16.61	Irrigation	Completed	
	Trimmu - Sidhnai link	Chenab	Ravi	Punjab	9.80	Irrigation		From existing Trimmu barrage, meets Ravi u/s of Sidhnai barrage.
	Sidhnai - Mailsi	Ravi	Sutlej with siphon at Mailsi	Punjab	9.01	Irrigation		Takes off from New Sidhani barrage.
	Mailsi - Bahawal link	Sutlej		Punjab	3.62	Irrigation		Supplies water to area in Bahawalpur.
	Balloki - Suleimani link	Ravi	Sutlej		11.98			From Balloki barrage on Ravi to Suleimanki headwater on Sutlej.
Total				Completed	99.95			
	Grand Total			Completed Proposed	145.73 44.94
