Información relativa a los lotes

Lote N^o: 1 Denominación: Lot 1 Intersite Tankering services1)**Breve descripción:**Intersite tankering of sludge in the Thames Water sewerage service area between Thames Water Utilities Ltd (TWUL) small sewage treatment works (collection sites) and large reception sites according to TWUL's production plan. The scope of work includes loading, transport and unloading of sludges by heavy goods vehicles, the scheduling of the loads and transport routes, and regular reporting to TWUL on the activity. In addition, it also covers reactive intersite tankering jobs, e.g., occasional re-seeding of failing sites and flow management. The scope excludes both the spreading of liquid biosolids and the disposal of cake to land.

Volume and spend information to be provided in the invitation to negotiate.

Lote N^o: 4 Denominación: Lot 4 integrated waste management services1)**Breve descripción:**To provide a waste disposal service for waste produced by operational sites (excluding sludge) for Thames Water Utilities Ltd across the whole Thames Water region.

Operational sites include:

Water treatment works and water treatment pumping stations, sewage treatment works and sewage pumping stations.

The waste will be allocated to individual lots as follows:

Sub-lot 1: Screenings (EWC 19 08 01) (Plastic material some sewage).

Sub-lot 2: Grit (EWC 19 08 02) (Grit washed into sewers some sewage).

Sub-lot 3: General Waste (mixed municipal) (EWC 20 03 01) (office waste may vary).

Sub-lot 4: Bundled waste streams including:

— Recyclable Waste (paper, plastic, cardboard, aluminium cans) (EWC 15 01 01),

— Hazardous (for example including but not limited to fluorescent tubes, paint, batteries, WEEE waste, etc),

— Oil (and associated oil waste for example: oily rag, oily granule waste),

— Scrap metal waste (EWC 20 01 40),

— "Green" waste (produced by Water treatment works),

— "Fly tipping" (a mix of general waste may include white goods).

Skips and/or specialist containers will be required (appropriate to waste type) for storage and/or waste disposal from TW operational sites.

For example:

-
- Screenings and grit - open skips (if collection is offered by grab lorry skips will also be required for storage at the majority of sites),
 - General waste - wheelie bins,
 - Recyclables - wheelie bins,
 - Hazardous - container according to waste type,
 - Oils are collected in drums/IBCs provided by TW but a specialist container will be required for oily rags/spill kits/granules.
- Volume and spend information to be provided in the Invitation to Negotiate.
